

Norbord is hosting an informational meeting on Monday, May 17.

Interested residents are invited to an informal meeting to learn about steps being taken to address odor coming from Norbord's new 'green' emission-control filter.

Although the odor is not harmful to people or the environment, we won't be satisfied until substantial improvements have been made. Join us Monday night and we'll answer any questions you might have.

Monday, May 17, 2010

7:00 p.m.

Eckles Town Hall

(County Road 9 north of the airport)
